## EXPERIENCE

### Full Stack Web Developer

SevenMentor

📅 2024 - 2025 📍 Pune

I worked as an intern In SevenMentor Pvt. Ltd. is a prominent IT training and corporate education provider headquartered in Pune, Maharashtra.

- Learned new programming languages
- Improved my problem solving skills
- Worked in group projects

## KEY ACHIEVEMENTS

### Problem-solving

"While working with the institute, I learned new things and gained an understanding of the challenges I might face when working with large IT companies. This experience enhanced my problem-solving skills, which will be beneficial in achieving my future goals."

## INTERESTS

Java Backend developer

## COURSES

Full Stack Web Development (SevenMentor, 2024)

## PROJECTS

### Store management system

This is a full stack web application developed as a group project during my internship at SevenMentor. My role was to develop backend features that streamline data storage for the end user.

### Animaxx

This is a personal full stack web application currently under development, aimed at supporting an e-commerce business. It also includes a social feature that allows users to connect with others, similar to social media platforms. The application is being built using HTML, CSS, JavaScript, React.js, and JavaScript libraries such as GSAP for animations.
